BAN ON CYCLERS

WITH OPEN MUFFLERS. F. A. M. Against the Noisy Runners of Their Machines.

Speed maniacs and "open muffler flends" have come to the end of the road, as far as the Federation of Amer-

road, as far as the Federation of American Motorcyclists is concerned.

The national organization, governing motorcycle racing, and protecting the interests of all mortorcycle riders, realizes that those who ride at reckless speeds and persist in the "open muffler" nuisance, give motorcycles and motorcyclists an unenviable name—and the F. A. M. proposes to put a stop to it wherever possible.

Through G. H. Hamilton, of New York, its president, and J. Leo Sauer, of New York, chairman of the F. A. M.; legal action committee, the organization has given notice of its stand.

"A motorcycle is noisy only when

"A motorcycle is noisy only when the muffler is open, and I am heartily in favor of any movement that has as its object the control of the open muf-fier. The F. A. M. intends to persist from now on in a campaign to do away with this nulsance," said Fresident Hamilton.

"The evils of the open muffler are so apparent that no comment is really necessary. But, what is necessary is an active campaign in making plain to motorcyclists the injury they are doing to themselves and all riders by running their machines with mufflers open. This opplies more particularly to the cities and towns, but there is really no reason for riding over the country roads with mufflers continually open."

Chairman Section 12:06 3-4, within half a minute of the world's record.

I was then suffering from terri-bic pains in the small of my back.
